Portfolio: <https://tumelo-segale.github.io/Tumelo-Segale/>

PROFESSIONAL SUMMARY

Information Technology graduate specializing in Software Development with full-stack web application experience. Skilled in Java/Spring Boot backend systems, secure authentication, and payment gateway integration. Passionate about building scalable, mobile-first solutions with a focus on user experience and continuous technical growth.

TECHNICAL SKILLS

Programming Languages:

Java, Python, JavaScript, PHP

Backend Development:

Spring Boot, REST APIs, JPA, Hibernate, Maven

Frontend Development:

HTML5, CSS3, JavaScript, React

Databases & Tools:

MySQL, JDBC, Git, GitHub, VS Code, NetBeans, IntelliJ IDEA

Core Competencies:

Authentication & Authorization, CRUD Operations, Payment Gateway Integration, Mobile-First Architecture, Responsive Design, Agile Development Practices

WORK EXPERIENCE

Core Developer (Project-Based) | Tech Collective Crew — VUT | 2025

- Architected tech-focused portals and orchestrated development bootcamps for peer students.
- Mentored fellow students in deploying full-stack applications using Java, Spring Boot, and React.
- Led code reviews and enforced best practices for version control (Git/GitHub).

Project Developer | Enactus VUT | 2024–2025

- Contributed to technology-driven entrepreneurial projects focused on social impact and innovation.
- Co-designed technical solutions for community challenges, presented at national competitions.
- Collaborated in agile teams to deliver functional prototypes under tight deadlines.

Freelance Full-Stack Developer | Self-Employed | 2024–2025

- Developed and deployed production-ready web platforms (Dr Jacob Segale, BusyCorner, SaleStation) for clients.
- Integrated secure authentication and Paystack payment gateways.
- Optimized applications for mobile-first performance and responsive design.

PROJECTS

SpeakUp Namibia | Consumer Review Platform

- Designed and developed a public review platform enabling Namibians to share feedback on businesses, government departments, and services.
- Created a user-focused platform promoting transparency, accountability, and community engagement.
- Implemented structured review of submission and browsing experience for accessibility and ease of use.
- Focused on user interaction, clarity of information, and scalable platform concepts.

SelaMod | Guest House Website

- Developed a responsive, multi-page website for a luxury guest house, showcasing its philosophy, suites, and local attractions.
- Designed and implemented a modern user interface with a focus on visual storytelling to highlight the property's unique amenities and serene living experience.
- Ensured a seamless user experience across all devices, from desktop to mobile, for optimal browsing and booking inquiries.

SaleStation | Point of Sale (POS) System

- Developed a digital point-of-sale system for managing sales transactions and business operations.
- Implemented features for product selection, transaction handling, and real-time calculation of totals.

- Designed an intuitive interface to support efficient checkout processes and ease of use for small businesses.
- Focused on accuracy, usability, and streamlined workflow for retail environments.

Dr Jacob Segale | Full-Stack Web Platform

- Designed and developed a production-ready full-stack web platform for publishing and managing books, articles, and blog content.
- Built a secure admin dashboard with authentication, enabling content creation, editing, and deletion.
- Implemented database-driven functionality for dynamic content management.
- Integrated Paystack payment gateway to enable secure and seamless online book purchases.
- Optimized application performance and ensured responsive design across devices.

BusyCorner | Mobile-First E-Commerce Platform

- Designed and developed a mobile-first e-commerce platform intentionally optimized exclusively for mobile devices.
- Deployed on a live custom domain, demonstrating real-world hosting and deployment capabilities.
- Implemented structured product displays, smooth navigation, and performance-focused user experience.
- Focused on usability, accessibility, and efficient interaction design tailored for mobile users.

EDUCATION

Vaal University of Technology

Diploma in Information Technology (Software Development) - 2025

ACHIEVEMENTS

- Represented Vaal University of Technology at the **Enactus South Africa National Competition 2025** in Sandton, competing against 26 universities nationwide and securing **3rd place nationally**.
- Represented Vaal University of Technology at the **1st South African-hosted Hult Prize Nationals (2025)**, competing at a national entrepreneurial innovation competition.

CERTIFICATIONS & TECHNICAL PARTICIPATION

- FNB App Academy Certificate in Full Stack Development - 2025
- CCNA: Introduction to Networks - Cisco - 2023
- Participant - Vaal University of Technology Annual Hackathon - 2025

LEADERSHIP & INVOLVEMENT

- **Enactus Member** - Vaal University of Technology (2024 - 2025)
Contributed to technology-driven entrepreneurial projects focused on social impact and innovation.
- **Representative Council of Learners (RCL)** - Meridian Rustenburg (2021)
Represented student interests and assisted in organizing institutional initiatives
